
LETTER OF ENDORSEMENT

PHIL LYMAN - UTAH HOUSE DISTRICT 73

April 19, 2018

Dear Voter:

We are at a crossroads when it comes to representation for rural Utah. There are many organizations working diligently to convert our representation to a progressive liberal representation. A small faction of the outdoor recreation industry has spent millions of dollars over the years to lock up Utah public lands. Most recently they have taken action to harm Utah's economy because Utah's elected leaders wouldn't adopt their liberal ideas and policies. Now more than ever, it is critical that we elect a true conservative with courage and knowledge to stand up for rural Utah, multiple use, sustainability and access to public lands.

Phil Lyman is a proven leader not only in his private business but also as a public servant. Phil had the courage to stand up to the BLM in what was essentially an illegal closure of an RS2477 road in San Juan County. Phil has worked diligently for the citizens of San Juan County and the entire state of Utah to protect rights on public lands, multiple use of public lands and against federal over reach. Phil is a well educated, calm, peaceful, well thought out leader. Phil is very analytical and extremely well versed in the law, federalism, and states rights. Phil was elected as County Commissioner of the year by his colleagues in the Utah Association of Counties and has widespread support among other elected officials.

It is a privilege to call Phil a friend, but even more of an honor to endorse him as our next Utah State House of Representatives member for House District 73. Phil will put his heart and soul into working hard on behalf of the citizens in his district, his love for rural Utah will drive him like no other candidate. Without question Phil is the best person to represent our district and we encourage your support of Phil Lyman for Utah State Representative in House District 73.
